1.0 GENERAL INFORMATION

1.1 Scope

DigiScript empowers institutions to streamline student transcript processing through a powerful integration of Optical Character Recognition (OCR) and Robotic Process Automation (RPA) technologies. This innovative solution seamlessly integrates with leading Student Information Systems (SIS) such as Banner and BDMS, eliminating manual data entry and facilitating efficient data transfer from diverse institutions. This frees up your staff and speeds up student enrollment. By automating the intake and processing of transcripts, DigiScript fosters operational efficiencies and expedite decision-making within the admissions process.

KTech's DigiScript transcends its core functionality of transcript processing by facilitating a comprehensive transfer student evaluation workflow. The solution automates the analysis of coursework from diverse institutions, generating standardized evaluation reports. Additionally, DigiScript streamlines communication by efficiently delivering these reports to students. This automation empowers the Transfer department to optimize their operations, enabling them to dedicate their expertise to strategic decision-making processes surrounding transfer applications.

KTech's 'DigiScript' solution for 'Transcript OCR to SIS' aims to process 6,500 transcripts from different high schools and college institutions using OCR and RPA technologies. This solution needs to be compatible and integrate seamlessly with Banner, Slate, and BDMS.

1.2 Process -

Automated Transcript Download and Integration:

DigiScript leverages software robots (BOTs) to automate the secure retrieval of student transcripts from various sources, like NSC, Parchment, Common app etc. These transcripts are then seamlessly uploaded into the DigiScript portal for centralized access and processing.

Streamlined Data Entry and System Integration:

DigiScript utilizes the latest Trantechnologies to extract relevant data from the uploaded transcripts, apply the business rules to transform the data and subsequently populate it into then Slate, designated Banner pages, such as SOAPCOL, SHATAEQ, and SHATRNS, ensuring accuracy and efficiency. Additionally, DigiScript facilitates the automatic upload of transcripts into the BDMS system, creating a unified data repository.

Enhanced Transfer Student Evaluation:

Moving beyond data entry, DigiScript empowers institutions by performing course evaluations based on the extracted information. This comprehensive analysis streamlines the transfer student evaluation process. Subsequently, standardized evaluation reports are generated and delivered electronically to students, fostering clear communication.

2.0 Login

Each OSU-OKC user who will be accessing the portal can login (SSO) into the DigiScript portal using their OSU-OKC email address.

Following is the URL to access the DigiScript Portal in UAT environment.

<https://digiscript-osu-okc-uat.ktechproducts.com/ktech>

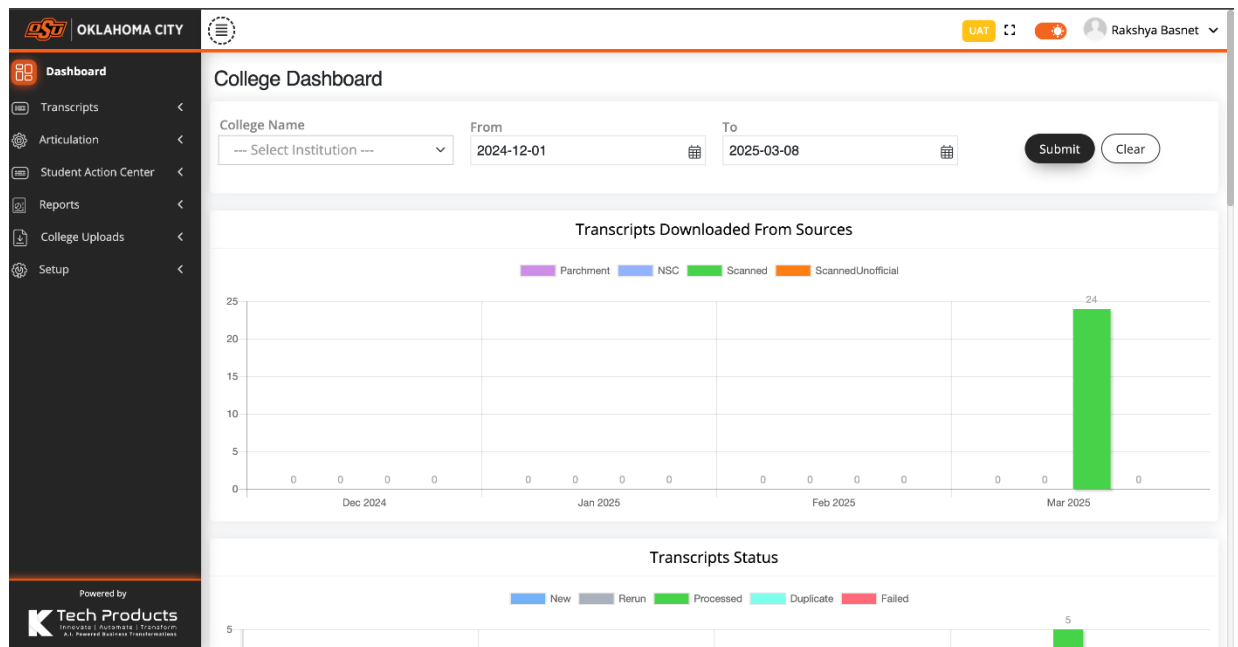

Pick an account

rakshya.basnet@ktechproducts.com

2.0.1 Successful Login

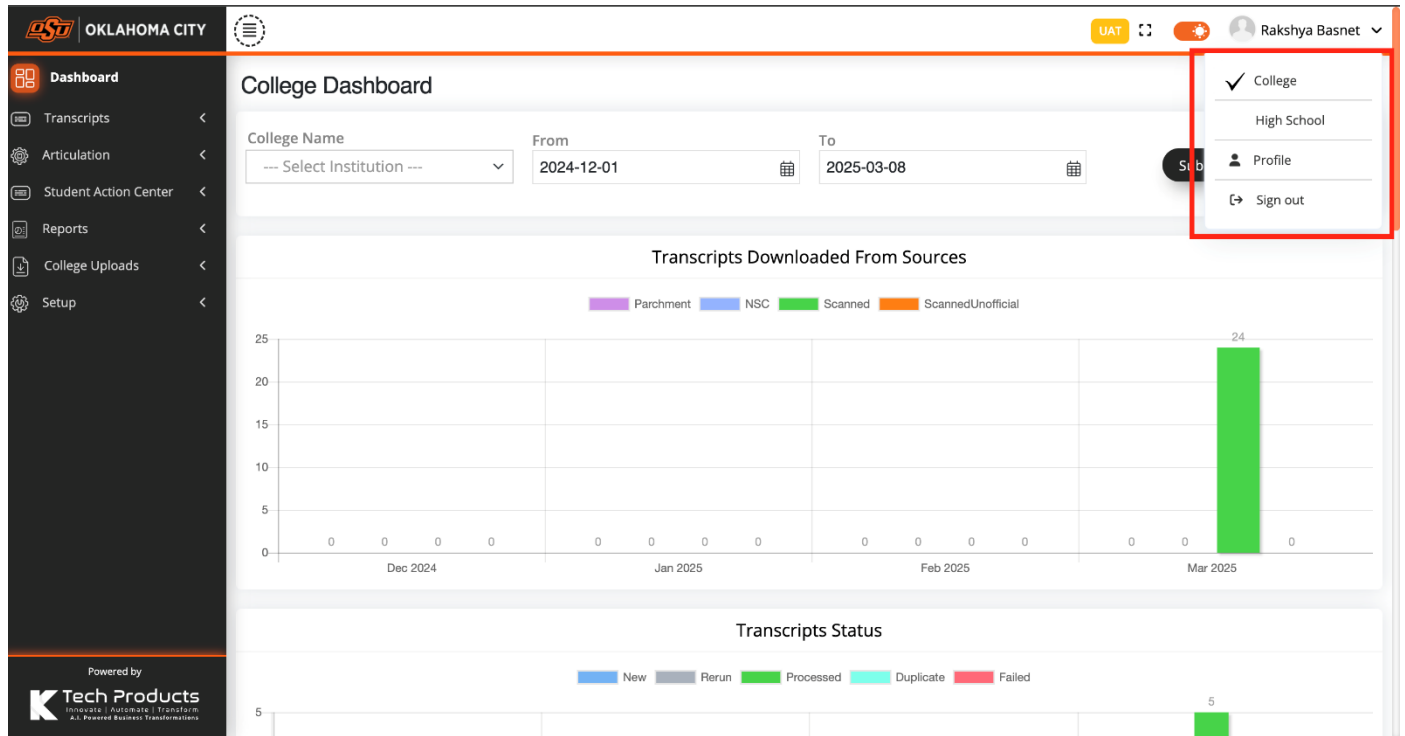

Following successful authentication, the DigiScript portal presents users with the Dashboard as the landing page.

2.0.2 Update Profile, Access College or High School Records or Sign Out

To edit the profile name, change the password, or sign out, click on the dropdown in the upper right corner.

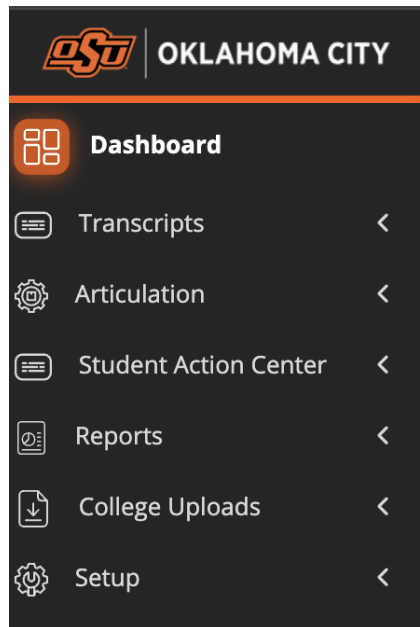

You can access the sub-portals for College and High School by selecting the corresponding drop- down option.

College Portal

2.1 Menus

The DigiScript menu serves as the navigation hub for the portal. It facilitates access to student information, reports for the Admissions and the Transfer departments, and system configuration tools, including mapping table management.

For a complete understanding of the available functionalities, the following sections will provide a breakdown of all menu tabs and their sub-menus.

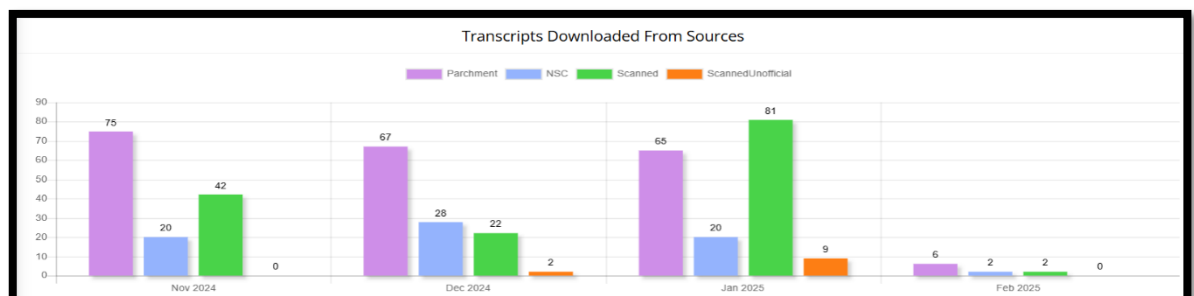

2.2 Dashboard

This visual dashboard provides a clear picture of the entire transcript lifecycle, encompassing download, processing in Banner, and the articulation of the courses too.

The downloaded transcripts can be filtered to be viewed by the selected college and/or between the selected date range.

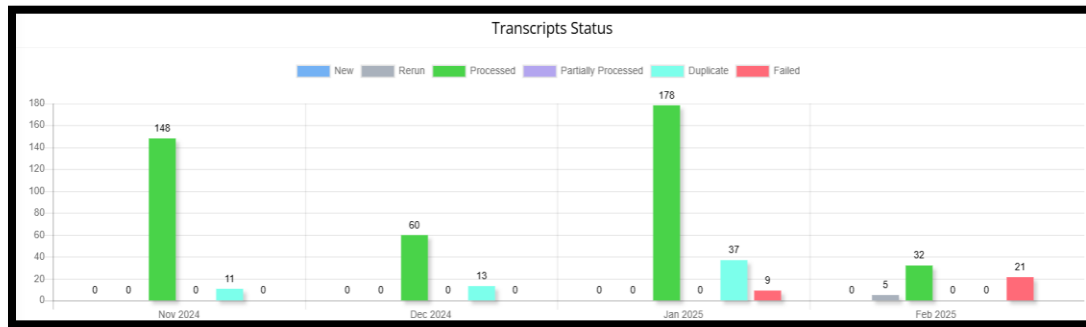

1) Transcript Sources

This graph tracks the origin of incoming transcripts, giving insights into the channels used by students to submit their transcripts.

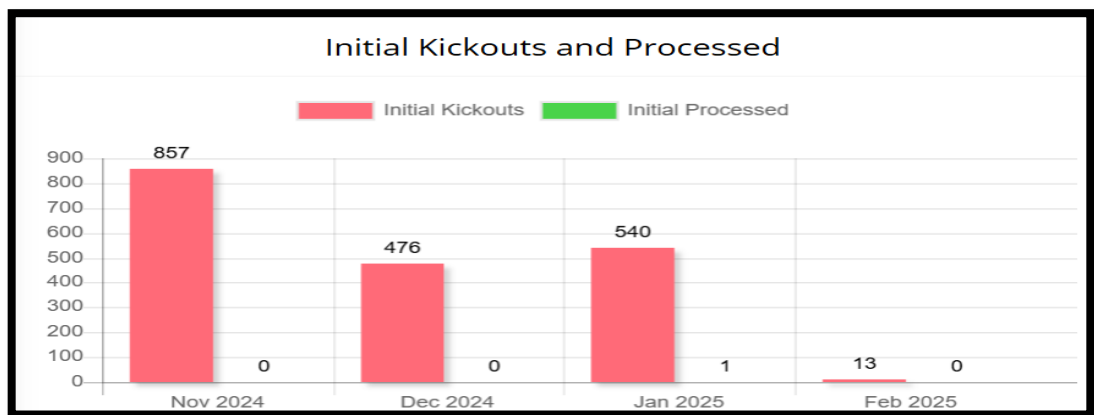

2) Transcripts Status

This graph shows the current stage of all transcripts being processed, allowing you to identify any bottlenecks or areas requiring attention.

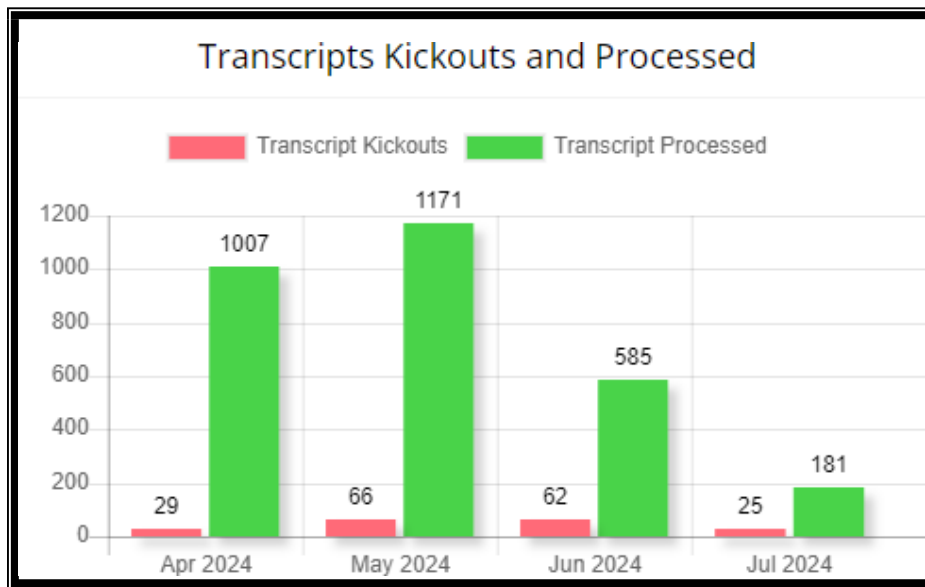

3) Initial Kickouts and Processed

This graph identifies transcripts that encountered errors or issues when the BOT processed it for the first time, helping to focus on resolving those issues which are encountered.

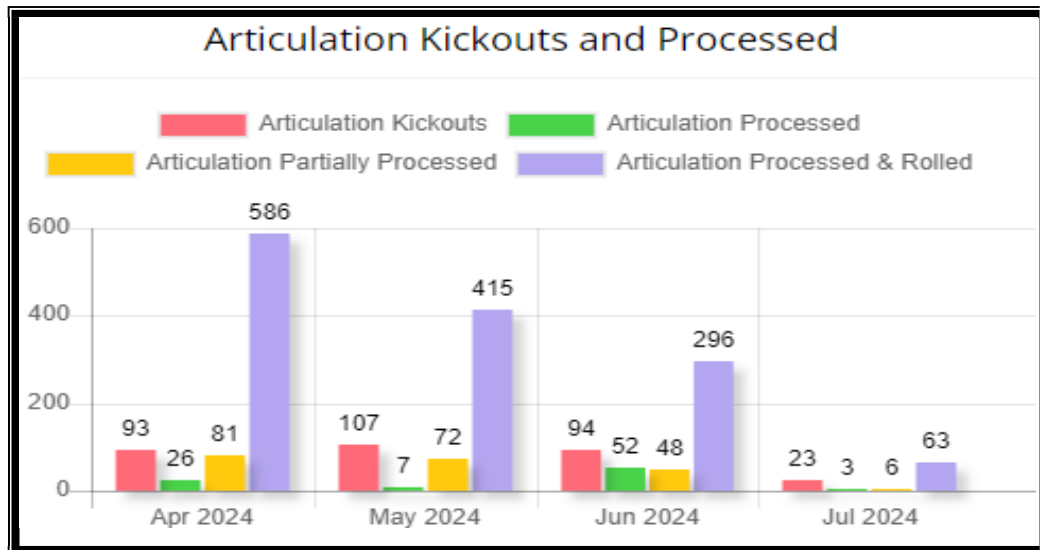

4) Transcripts Kickouts and Processed

This graph visualizes the number of transcripts that have successfully gone through the processing pipeline and the ones that have failed to process.

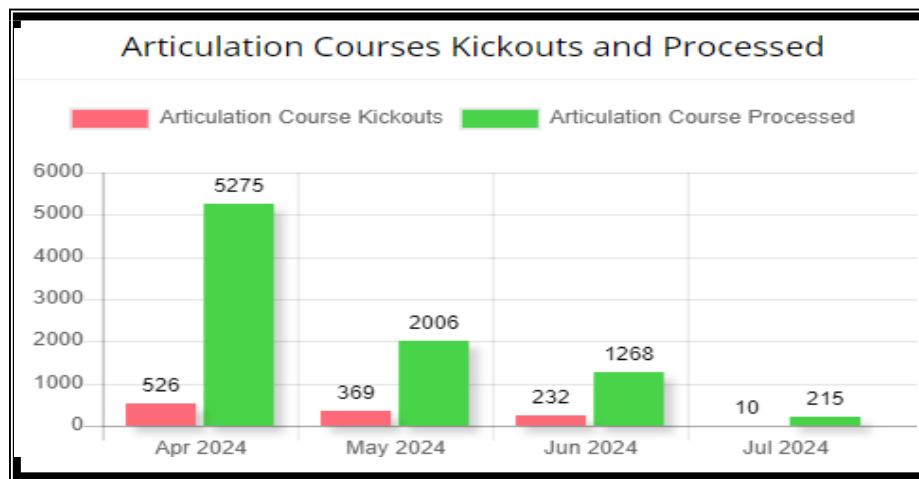

5) Articulation Kickouts and Processed

This graph tracks the number of transcripts that failed to be evaluated or were evaluated/ articulated and have been successfully processed, indicating successful credit transfer evaluations.

6) Articulation Courses Kickouts and Processed

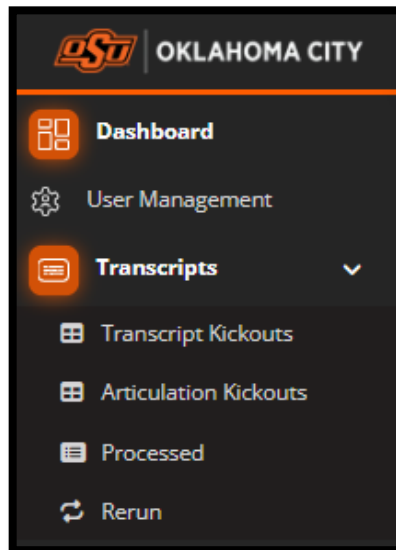

This graph highlights the articulation of courses completed and those that faced issues during processing, allowing for proactive intervention.

2.3 Transcripts

The Transcripts menu within the DigiScript portal provides a centralized view of the processing status for each individual transcript. This functionality is particularly valuable for the Admissions department, enabling them to monitor transcript progress in real-time. The automated processing workflows, managed by both Admissions and the Transfer team, are reflected within this menu, offering transparency, and facilitating informed decision-making.

Please note that each Transcript file which is downloaded for a student is identified by a unique “Batch ID”.

The Transcripts menu within DigiScript provides users with access to a set of intuitive submenus designed to streamline transcript processing activities. These submenus offer clear visibility into the different stages a transcript can encounter:

- i. **Transcript Kickouts** - identifies transcripts that encountered errors during, allowing for swift intervention and resolution.
- ii. **Articulation Kickouts** - highlights transcripts that require additional review due to potential course equivalency issues.
- iii. **Processed** - showcases transcripts that have been successfully processed and integrated into the system for the admissions department to help in decision making.
- iv. **Rerun** – showcases transcripts that may have encountered errors or require re-evaluation and are marked for reprocessing.

2.3.1 Transcript Kickouts

The Transcript Kickouts page on the DigiScript Portal acts as a central hub for managing transcripts that failed to process successfully.

Each transcript is identified by a unique "Batch ID" for easy reference. There are several reasons why a transcript might end up here:

- **Designed Kickouts:** These occur based on pre-defined business rules to ensure proper handling of specific scenarios.
- **Missing Data:** The system might not be able to identify essential information like student ID, institution ID, degree code, etc.

- **Not a Transcript:** The downloaded file from the source might not be a valid transcript document.
- **Other Errors:** Additional reasons for kickouts will be explained directly on the page under the "Error Reason" section.

To further assist with troubleshooting, the page might also include an "Error Screenshot" captured during processing. This screenshot can pinpoint where the automated system (BOT) encountered an issue, providing valuable context for the OSU-OKC team to resolve the problem and get the transcript back on track.

College Name	Institution ID	Student ID	Slate ID	Student Name	Batch ID	Slate Status	Transcript uploaded to Slate	Banner Status
Oklahoma City University	6543			Clint Maune	1765096			
Jart County College	6834			Conner, Dyman B	1765093			
Oklahoma City University	6543			Marco Antonio N Alarcon	1765084			
Oklahoma Panhandle State Univ	6571			Justin K Collins	1765081			

- For Transcript Kickout, we can Reprocess transcript using options "Reprocess the Transcript,"
- Use Refresh data to refresh the page and can search using any Field or field values on the search
- Also, we can export the results to Excel using Export Option
 - This export will only export the records viewed on the page. For example: if the page is showing 10 records, the export will include only the 10 records shown on the page, and if the page shows 50 records – it will download those 50 records
 - “Export All to Excel” option will export all the records available. For example: If at the bottom of the page it is shown as “Showing 1 to 10 of 750 entries”, this option will help you to download all 750 records in one go.

The fields are described below:

Number	Field	Description
1.	College Name	College / University Name
2.	Institution ID	Institution ID from Banner
3.	OSUOKC ID	Student ID from Banner
4.	Slate ID	Unique Applicant ID from Slate
5.	Student Name	Student Name as on the Transcript
6.	Batch ID	Unique ID to identify each Transcript

7.	Slate Status	➤ Processed – Student details are entered in Slate successfully ➤ Blank – Slate process is not done ➤ Failed – The BOT errored out while processing student details in Slate
8.	Transcript uploaded to Slate	➤ Processed – Student Transcript was uploaded to Slate successfully ➤ Blank – Slate upload process has not yet started ➤ Failed – The BOT errored out while uploading the transcript on Slate
9	Banner Status	➤ Processed – Student details are entered in Banner successfully ➤ Blank – Banner process is not done ➤ Failed – The BOT errored out while processing student details in Banner
10	Transcript uploaded to BDMS	➤ Processed – Student Transcript was uploaded to BDMS successfully ➤ Blank – BDMS upload process has not yet started ➤ Failed – The BOT errored out while uploading the transcript on BDMS.
11	Scenario	Student type: ➤ Applicant
12.	Error Reason/Action	Error reason which mentions why the process failed and the Action to be taken
13.	Error Screenshot	Screenshot taken when the BOT errored out
14.	Transcript	Link to view the Transcript
15	Transcript Status	Overall Transcript Status: ➤ New – The Transcript is to be picked up by the BOT for processing ➤ Processed – Student details are entered in Slate, Banner and uploaded to BDMS successfully ➤ Rerun – The Batch ID or the transcript is set to be reprocessed and will be picked up by the BOT in the next run. ➤ Failed – The BOT could not proceed with the processing of the student transcript Duplicate – The uploaded transcript is a copy of a transcript which is present in the DigiScript portal which was either downloaded by the BOT or uploaded through the portal earlier.
16.	Action	Action Needed: ➤ Reprocess this transcript – Based on the error reason on the kickouts page, the OSU-OKC team needs to take action and mark the Batch ID for reprocessing ➤ No Action Needed – If the Transcript is not required to be processed by DigiScript the action is selected then the transcript moves into processed folder.

		Processed manually by OSUOKC – If the OSU-OKC team processes the student transcript manually in Slate and on the SOAPCOL page (no articulation done), then this option has to be selected. Portal will prompt for Institution ID, OSUOKC ID if they are missing, so that the next process of articulation can be carried out. Processed and Articulated manually by OSUOKC – If the OSU-OKC team processes the student transcript manually in Slate and on the SOAPCOL and SHATEAQ page then this option has to be selected. Portal will prompt for Institution ID, and OSUOKC ID if they are missing, so that the transcript is processed manually
17.	User Comment	User Comments – Editable Field where the details can be entered by the OSU-OKC team
18.	Updated On	Shows the date and time when the Batch ID was last processed either by the BOT/user
19.	Updated By	Shows the name of the BOT/User who last processed/updated the Batch ID

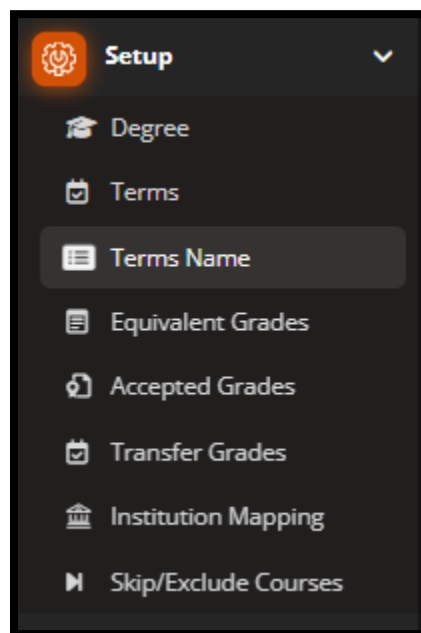

Following are some of the error reasons for the transcripts kickoff:

- **Attended start term missing for student:** This error occurs when the BOT cannot associate the start / end term of the transcript. It means that the term name mentioned in the transcript doesn't match any term mapping in DigiScript Term mapping table. For example: Term PS is also called the Spring term, but the mapping is not present in the mapping table.

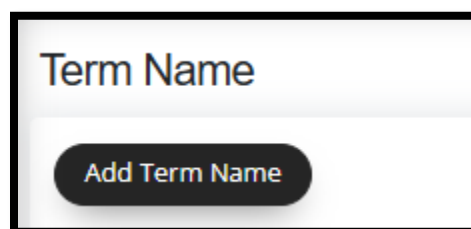

- **Action**

To resolve this error:

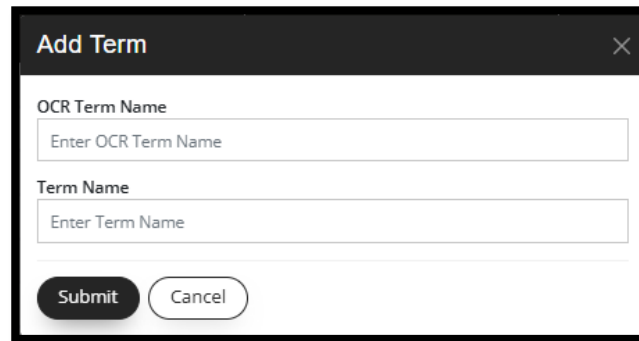

- 1) Go to setup option and choose 'Terms Name'

- 2) Select **Add** term option

- 3) Add the required term details

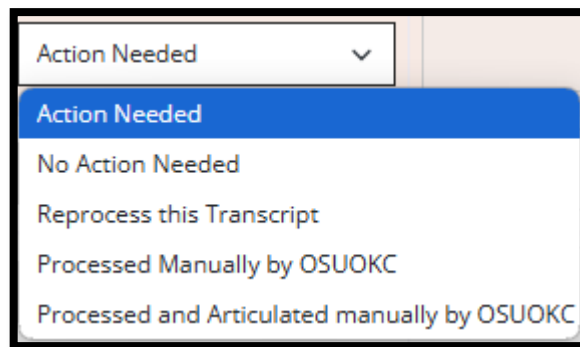

Add Term [X]

OCR Term Name

Term Name

Submit **Cancel**

- 4) Return to the kickouts page, select "Reprocess this Transcript" from the 'Action needed' dropdown, and click the "Update" button in the bottom right corner.

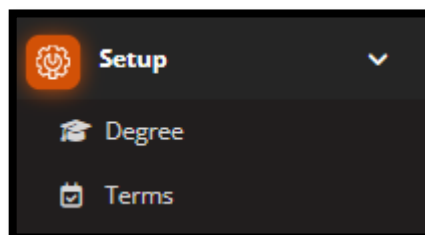

Action Needed [v]

- Action Needed
- No Action Needed
- Reprocess this Transcript
- Processed Manually by OSUOKC
- Processed and Articulated manually by OSUOKC

- **Degree not found:** This error occurs when the system cannot locate the degree associated with a particular transcript. It means that the degree information mentioned in the transcript doesn't match any records in the portal's database. For example: “Assoc in Arts” on the Transcript does not match “Associate in Arts” in the Degree Mapping table.

- **Action**
To resolve this error:

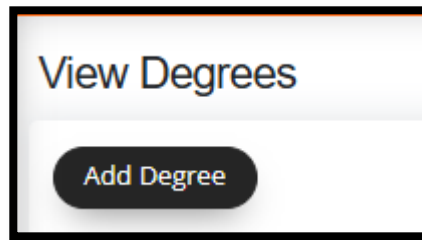

- 1) Go to Setup option and choose ‘Degrees’.

Setup [v]

- Degree
- Terms

- 2) Select **Add** degree option.

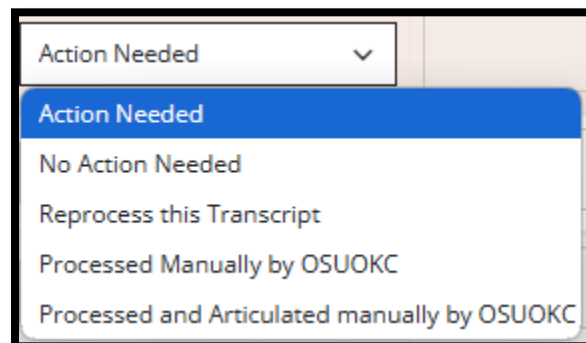

- 3) Provide the degree code and the degree seen in the error reason on the kickouts page.

For example: Degree code: AA and Degree Name: Assoc in Arts

A dark-themed dialog box titled "Add Degree" with a close button (X) in the top right corner. It contains two input fields: "Degree Code" with the placeholder text "Enter Degree CD" and "Degree Name" with the placeholder text "Enter Degree Name". At the bottom, there are two buttons: "Submit" (dark background, white text) and "Cancel" (light background, dark text).

- 4) Return to the kickouts page, select "Reprocess this Transcript" from the 'Action needed' dropdown, and click the "Update" button in the bottom right corner.

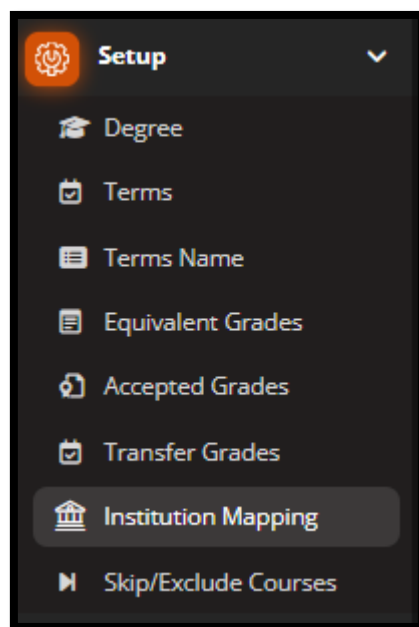

- **Institution code or name not found:** This error arises when the BOT cannot identify or recognize the institution from which the transcript is received. The institution's name provided in the transcript does not match any mapping in the Institution Mapping table. For example: The institute name “College Of Our Lady Of The Elms” on the Transcript does not match to the name “Elms College” which is the Banner institution name. So, the transcript name must be mapped correctly with the Banner institution name.

○ **Action**

To resolve this error:

1. Go to Setup menu and choose ‘Institution Mapping’

2. **Edit** or **Add** the institution mapping by updating the transcript institution name with the institution name mentioned in the error reason.

Add Institution Mapping

- Now on the transcript kickouts page choose option “Reprocess this

Action Needed

Action Needed

No Action Needed

Reprocess this Transcript

Processed Manually by OSUOKC

Processed and Articulated manually by OSUOKC

Transcript” under the **Action Needed** dropdown button of the same transcript and click on the “Update” button.

- **Student not found in banner:** This error indicates that with the student's information provided on the transcript, the BOT was not able to find the student id in Banner. The record will be seen in kickouts after - The student will be searched in banner for 15 consecutive days. The underlying data should be updated in Banner, for the student id to be found or if there is no SSN and Date of Birth on the transcript for the student, the Slate Applicant ID or the Banner ID needs to be provided by the OSU-OKC team.
 - **Action**
OSU-OKC to update the underlying data in Banner or provide the Banner ID.
- **To be reviewed by OSU-OKC:** When an error message states, "To be reviewed by OSU-OKC," it means that the issue or error needs to be assessed and addressed by the admissions team from OSU.

Reasons for the error requiring OSU-OKC review:

1. Not a transcript: The document being processed may not be a transcript. It could be a different type of document like a report, or a fee waiver downloaded as a transcript, etc.
 2. Multiple institutions: The file may contain transcripts from multiple institutions.
 3. No student data on the transcript: The transcript may lack essential student information, such as name, course details, etc or other identifying details. Without this crucial data, the system cannot process the transcript accurately.
- **Action**
OSU-OKC to review them and let KTech know about the action to be taken.
OSU-OKC team can mark these as "Processed manually by OSUOKC" if there is no action to be taken by KTech.

2.3.2 Articulation Kickouts:

The "Transcript Articulation Kickouts" page within DigiScript identifies transcripts encountering evaluation errors during processing. This typically occurs when course equivalency cannot be automatically established for one or more courses on the transcript. The page provides specific details to assist users in resolving these issues:

Failed: Transcripts with an "Articulation Status" of "Failed" may indicate errors like SHATAEQ processing failures or issues with equivalency mapping. These transcripts require manual intervention to determine the appropriate course equivalencies.

Partially Evaluated: Transcripts with a status of "Partially Evaluated" signify that some courses have established equivalencies (processed by the BOT), while others lack matching equivalency ("Equivalency not found"). These transcripts necessitate a review to address the unmapped courses.

The fields are described below:

Number	Field	Description
1.	College Name	College / University Name
2.	Institution ID	Institution ID from Banner
3.	OSUOKC ID	Student ID from Banner
5.	Student Name	Student Name as on the Transcript
6.	Batch ID	Unique ID to identify each Transcript
7.	Slate Status	➤ Processed – Student details are entered in Slate successfully ➤ Blank – Slate process is not done ➤ Failed – The BOT errored out while processing student details in Slate
8	Transcript uploaded to Slate	➤ Processed – Student Transcript was uploaded to Slate successfully ➤ Blank – Slate upload process has not yet started ➤ Failed – The BOT errored out while uploading the transcript on Slate
9.	Banner Status	➤ Processed – Student details are entered in Banner successfully ➤ Blank – Banner process is not done ➤ Failed – The BOT errored out while processing student details in Banner
10.	Transcript uploaded to BDMS	➤ Processed – Student Transcript was uploaded to BDMS successfully ➤ Blank – BDMS upload process has not yet started ➤ Failed – The BOT errored out while uploading the transcript on BDMS.
11.	Scenario	Student type: ➤ Applicant
12.	Error Reason/Action	Error reason which mentions why the process failed and the Action to be taken
13	Error Screenshot	Screenshot taken when the BOT errored out
14.	Transcript	Link to view the Transcript
15.	Transcript Status	Overall Transcript Status is always Processed on this page since Articulation is carried out only when this Status is Processed. Processed – Student details are entered in Slate, Banner and uploaded to BDMS successfully

16.	Articulation Status	Overall Articulation Status: ➤ New – The Transcript is to be picked up by the BOT for evaluation. ➤ Processed – The evaluation is completed successfully but the Evaluation letter is not sent to the student ➤ Partially Processed – There are few course(s) which were not evaluated are to be reviewed by OSU-OKC team ➤ Rerun – The courses on the transcript which were in kickouts are set to reprocess and will be picked up by the BOT in the next run ➤ Failed – The BOT could not proceed with the evaluation of all the transcript courses, and these kicked out courses can be seen on the Articulation-> Articulation Kickouts page where they can be mapped using override edit. ➤ No Articulation needed – The courses on the transcript are not to be evaluated. ➤ Processed and Rolled – The Evaluation is completed; the evaluation letter is sent to the student and the process of rolling to history is also completed.
17.	Action	Action Needed: ➤ Reprocess this transcript – Based on the error reason on the kickouts page, the OSU-OKC team needs to take action and mark the Batch ID for reprocessing ➤ No Action Needed - If the Transcript is not required to be processed by DigiScirpt the action is selected then the transcript moves into processed folder ➤ Processed manually by OSUOKC – If the OSU-OKCteam evaluates and processes the student transcript manually then this option has to be selected.
18.	User Comment	User Comments – Editable Field where the details can be entered by the OSU-OKC team
19.	Updated On	Shows the date and time when the Batch ID was last processed either by the BOT/user
20.	Updated By	Shows the name of the BOT/User who last processed/updated the Batch ID

College Name	Institution ID	Student ID	Student Name	Batch ID	Slate Status	Transcript uploaded to Slate	Banner Status	Transcript uploaded to BDMS
Oklahoma State Univ Stillwater	6546	A10219983	Abby Bell	1485406	Processed	Processed	Failed	Processed
Arkansas State Univ	6011	A20559091	Michael Bolton A Mclean	1721303	Processed	Processed	Processed	Processed
Arkansas Community Collg	6281	A20537050	Jantzen Jade Scott	1386586	Processed	Processed	Processed	Processed

- **Action**
To fix the articulation kickouts due to SHATAEQ errors, navigate to the articulation kickout page with the batch ID which kicked out.

Institution ID	OSUIT ID	Student Name	Batch ID	Slate Status	Transcript uploaded to Slate	Banner Status	Transcript uploaded to BDMS	Scenario	Error Reason / Action
6484	A10162439	Briggs Melvin W	1696130	Processed	Processed	Processed	Processed	Applicant	SHATAEQ - Partially Evaluated

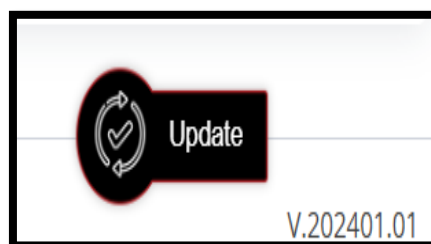

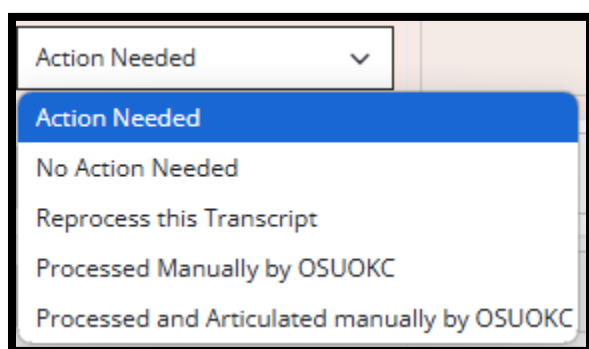

Select the Articulation -> Articulation Kickouts menu to show the courses which have kicked out because of no equivalency mapping.

College Name	Institution ID	OSUIT ID	Batch ID	Status Banner Articulation	Level	Attendance Period	Term	Subject	Course ID	Course Title	Credits	Grade	Action
Northeastern Ok A&m College	6484	A10162439	1696130	Failed	U	1989-1990		BI SCI	1114	BIOLOGY	4	WX	Select
Northeastern Ok A&m College	6484	A10162439	1696130	Failed	U	1989-1990		D READ	1101	SKILLS FOR SUCCESS	1	B	Select
Northeastern Ok A&m College	6484	A10162439	1696130	Failed	U	1989-1990		BUSADM	1011	BUSINESS ORIENTATION	1	B	Select

Options to process these courses are:

1. Create the equivalencies for these courses in SHATATR and mark these courses for re- processing.
2. Update these equivalencies manually in SHATAEQ and mark these courses as “Processed manually by OSUOKC” if there is an urgency in processing this transcript if the student is knocking at the door
3. Select the Override edit option and update the equivalent subject and course id on the course kickouts page and mark the process for rerun.

Once these courses are marked for reprocessing or are marked as processed manually by OSU-OKC, click on the Update button in the bottom right corner of the page.

2.3.3 Processed:

The “Processed” page shows all the student records / batches which have been processed according to the workflow followed by the Admissions team.

The “Transcript Status” field will be marked as “Processed” always for the records on this page. This page also has an additional “Articulation Status” flag which helps to identify the status of the evaluation of the transcript.

11.	Transcript Status	Overall Transcript Status is always Processed on this page`. ➤ Processed – Student details are entered in Slate, Banner and uploaded to BDMS successfully

13.	Articulation Status	Overall Articulation Status: ➤ New – The Transcript is to be picked up by the BOT for evaluation. ➤ Processed – The evaluation is completed successfully but the Evaluation letter is not sent to the student ➤ Partially Processed – There are few course(s) which were not evaluated to be reviewed by OSU-OKC team ➤ Rerun – The courses on the transcript which were in kickouts are set to reprocess and will be picked up by the BOT in the next run ➤ Failed – The BOT could not proceed with the evaluation of all the transcript courses, and these kicked out courses can be seen on the Articulation->Articulation Kickouts page where they can be mapped using override edit. No Articulation needed – The courses on the transcript are not to be evaluated. ➤ Processed and Rolled – The Evaluation is completed; the evaluation letter is sent to the student and the process of rolling to history is also completed.
14.	Letter sent Date	Date when the Evaluation letter was sent to the student after evaluation
15.	Transfer Letter File Link	Link to view the Transfer Letter sent to the student
16.	User Comment	Details entered by the OSU-OKC team are viewed
17.	Updated On	Shows the date and time when the Batch ID was last processed either by the BOT/user
18.	Updated By	Shows the name of the BOT/User who last processed/updated the Batch ID

2.3.4 Rerun

The "Rerun" page within DigiScript serves as a central hub for managing transcript reprocessing. This functionality allows users to:

Manual Selection: Users can select specific transcripts for reprocessing, addressing potential errors or inconsistencies.

Automatic Routing: Transcripts from "Kickouts" pages (potentially due to processing errors) are automatically routed to the "Rerun" list, streamlining the resolution process.

Designed Rerun: The system can be configured (set number of days) to automatically trigger a "Rerun" for transcripts received before a corresponding application arrives. This feature ensures data accuracy by verifying the application exists once it's submitted.

College Name	Institution ID	OSUIT ID	Slate ID	Student Name	Batch ID	Slate Status	Transcript uploaded to Slate	Banner Status	Transcript uploaded to BDMS	Scenario
Amarillo College	6006			Warren Bryson Dane	1698889					

The fields are described below:

Number	Field	Description
1.	College Name	College / University Name
2.	Institution ID	Institution ID from Banner
3.	OSUOKC ID	Student ID from Banner
4.	Slate ID	Unique Applicant ID from Slate
5.	Student Name	Student Name as on the Transcript
6.	Batch ID	Unique ID to identify each Transcript
7.	Slate Status	➤ Processed – Student details are entered in Slate successfully ➤ Blank – Slate process is not done ➤ Failed – The BOT errored out while processing student details in slate

16.	Articulation Status	Overall Articulation Status: ➤ New – The Transcript is to be picked up by the BOT for evaluation. ➤ Processed – The evaluation is completed successfully but the Evaluation letter is not sent to the student ➤ Partially Processed – There are few course(s) which were not evaluated to be reviewed by OSU-OKC team ➤ Rerun – The courses on the transcript which were in kickouts are set to reprocess and will be picked up by the BOT in the next run ➤ Failed – The BOT could not proceed with the evaluation of all the transcript courses, and these kicked out courses can be seen on the Articulation-

		> Articulation Kickouts page where they can be mapped using override edit. No Articulation needed – The courses on the transcript are not to be evaluated. ➤ Processed and Rolled – The Evaluation is completed; the evaluation letter is sent to the student and the process of rolling to history is also completed.
17.	Action	Action Needed: ➤ No Action Needed - If the Transcript is not required to be processed by DigiScript the action is selected then the transcript moves into processed folder ➤ Reprocess this transcript – Based on the error reason on the kickouts page, the OSU-OKC team needs to take action and mark the Batch ID for reprocessing ➤ Processed manually by OSUOKC – If the OSU team processes the student transcript manually then this option has to be selected. ➤ Processed and Articulated manually by OSUOKC – If the OSU-OKC team processed and articulate the student transcript manually then this option has to be selected.
18.	User Comment	User Comments – Editable Field where the details can be entered by the OSU-OKC team
19.	Updated On	Shows the date and time when the Batch ID was last processed either by the BOT/user
20.	Updated By	Shows the name of the BOT/User who last processed/updated the Batch ID

2.4 Articulation

The DigiScript portal's "Articulation" menu equips the Transfer department with a centralized platform for comprehensive course-level evaluation management within student transcripts. This functionality fosters enhanced transparency and control over the processing pipeline.

On the Articulation page, users will find following sections:

- 1) Articulation Kickouts
- 2) Articulation Processed
- 3) Rerun

College Name	Institution ID	OSUIT ID	Batch ID	Status Banner Articulation	Level	Attendance Period	Term	Subject	Course ID	Course Title	Credits
Rogers State University	6545	A10208725	1611299	Failed	U	2000-2001		PMT	2101	Pre-Hosp Environment	1.
Rogers State University	6545	A10208725	1611299	Failed	U	2000-2001		PMT	2102	Intro to Pmt	2.

2.4.1 Articulation Kickouts

Error Identification - This submenu promptly pinpoints courses encountering evaluation errors. This enables the Transfer department to prioritize swift intervention and ensure timely completion of transcript evaluations.

The DigiScript portal empowers the OSU-OKC team to address course equivalency issues within student transcripts.

The BOT evaluates the courses if the mapping equivalency is found in Banner (SHATATR). If the equivalency is not found there, these courses can then be mapped using Override.

Here's a breakdown of the available

options: Override Option:

- o From the "Articulation Indicator" dropdown, select "Override."
- o Enter the following details:
 - Transfer Duplicate number (if applicable)
 - Equivalent subject code
 - Equivalent course ID
 - Specify whether to include/exclude the course in GPA calculation.
 - Indicate if the equivalent course's repeat system should be considered.
 - Determine if the equivalent course contributes to the GPA count.
- o Once all details are entered, mark the course for reprocessing. The BOT will incorporate this override information and reprocess this course during its next run.

The fields are described below:

Number	Field	Description
1	College Name	College / University Name
2	Institution ID	Institution ID from Banner
3	OSUOKC ID	Student ID from Banner
4	Batch ID	Unique ID for every Transcript
5	Status Banner Articulation	➤ Processed – Student details are entered in Banner successfully ➤ Blank – Banner process is not done ➤ Failed – The BOT errored out while processing student details in Banner
6	Level	Level [Undergrad (U)]
7	Attendance Period	Attendance Period on the Transcript (Start term and the End term)
8	Term	Admit Term
9	Subject	Subject from the Transcript. E.g. ENG, MAT, etc
10	Course ID	Course Code. E.g. 101, 111, etc
11	Course Title	Course description from the Transcript – E.g. Intro to Pmt
12	Credits earned per hour	Credits per hour
13	Grade	Grade earned
14	Articulation Indicator	Articulation Status
15	Error Reason/Action	Error reason which mentions why the process failed and the Action to be taken
16	Error Screenshot	Screenshot taken when the BOT errored out
17	Transcript	Link to view the Transcript
17	Reprocess Articulation?	Action Needed: ➤ Reprocess this Course – Based on the error reason on the kickouts page, the OSU-OKC team needs to act and mark the course for reprocessing ➤ Processed manually by OSUOKC – If the OSU-OKC team evaluates and processes the student transcript manually then this option must be selected.
18	Comments	User Comments – Editable Field where the details can be entered by the OSU-OKC team
19	Updated On	Shows the date and time when the course and hence the Batch ID was last processed either by the BOT/user
20	Updated By	Shows the name of the BOT/User who last processed/updated the Batch ID

- **Action**

To fix the articulation kickouts, navigate to the articulation kickout page with the Batch ID which kicked out.

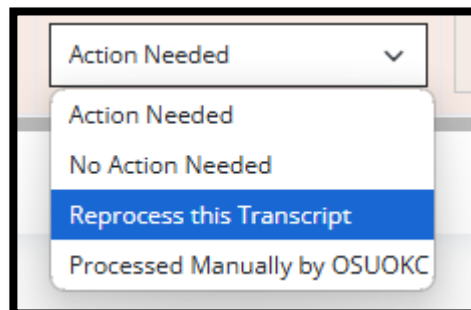

Institution ID	OSUIT ID	Student Name	Batch ID	Slate Status	Transcript uploaded to Slate	Banner Status	Transcript uploaded to BOMS	Scenario	Error Reason / Action
Imunity Coll	A20537050	Jantzen Jade Scott	1386586	Processed	Processed	Processed	Processed	Applicant	SHATAEQ - Partially Evaluated

Select the Articulation -> Articulation Kickouts menu to show the courses which have kicked out because of no equivalency mapping.

College Name	Institution ID	OSUIT ID	Batch ID	Status Banner Articulation	Level	Attendance Period	Term	Subject	Course ID	Course Title	Credits	Grade	Sel
Tulsa Community College	6839	A20558026	1718508	Failed	U	2021-2024		MKTG	2293	Social Media	3.00	A	Sel
Northeastern State University	6485	A10409018	1716779	Failed	U	1998-2003		PHYS	2215	ENG PHYS II (LAB REQ)	5.00	B	Sel

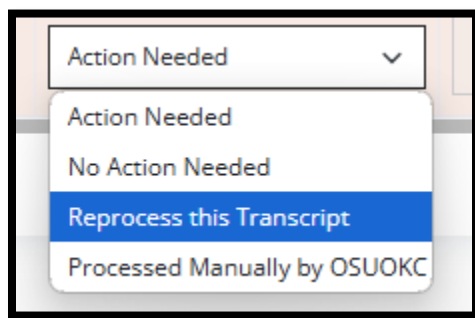

Options to process these courses are:

1. When you create the equivalencies for these courses in SHATATR, select the reprocess from the action needed dropdown.

2. Update these equivalencies manually in SHATAEQ and mark these courses as “Processed manually by OSUOKC” if there is an urgency in processing this transcript if the student is knocking at the door.
3. Select the Override option in Articulation indicator and update the equivalent subject and course id on the course kickouts page and mark the process for rerun.
4. If the course is supposed to be added in the Skip/exclude list, select Processed Manually and Skip/exclude course option and update.

Once these courses are marked for reprocessing or are marked as processed manually by OSUOKC, click on the Update button in the bottom right corner of the page.

2.4.2 Articulation Processed

Streamlined Access to Processed Data - This submenu serves as a readily accessible repository for successfully evaluated courses. This facilitates efficient data retrieval and utilization by the Transfer department, enabling informed decision-making regarding transfer applications.

21	Updated On	Shows the date and time when the course and hence the Batch ID was last processed either by the BOT/user
22	Updated By	Shows the name of the BOT/User who last processed/updated the Batch ID

2.5 Student Action Center

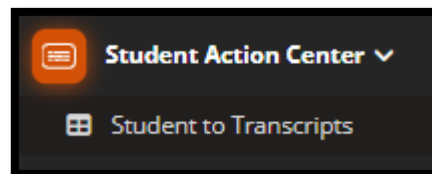

The Student Action Center simplifies your transcript management process. Imagine a central hub where you can:

- **View All Transcripts in One Place:** No more searching through different systems. Access all student transcripts quickly and easily.
- **Track Transcript Status:** See the current stage of each transcript - received, processed for admissions, in rerun, or failed.
- **Eligibility at a Glance:** For eligible students, identify if their transcript evaluation is complete, partially complete, or hasn't begun yet.
- **Drill Down for Details:** Click on any transcript to view the full record, mirroring the portal view.

The Student Action Center empowers you to:

- **Streamline Workflows:** Save time and effort with centralized transcript access.
- **Make Informed Decisions:** Quickly understand transcript status for admissions and evaluation.
- **Enhance Efficiency:** Focus on exceptions and prioritize transcripts requiring attention.

Experience the convenience of managing all your student transcripts from a single, powerful platform.

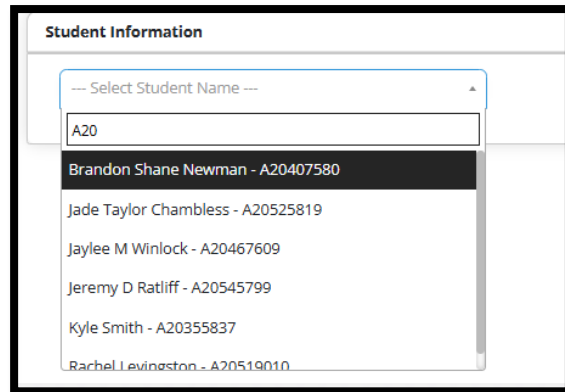

2.5.1 Student to Transcripts

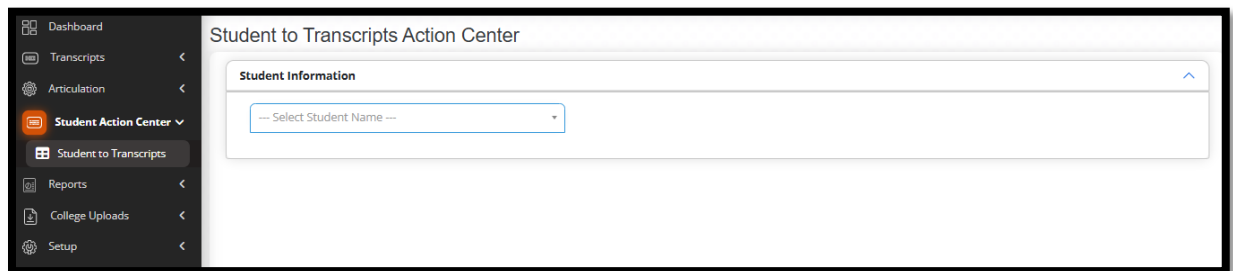

A user can effortlessly access and manage student transcripts with the Student to Transcripts menu. This intuitive menu allows you to:

1. **Search by Banner ID or Name:** Quickly find the student's transcript records using their unique Banner ID – OSUOKC ID or name.
2. **Consolidated Transcript View:** See all transcripts received for a particular student in one place.
3. **Status at Your Fingertips:** Each transcript displays a clear, descriptive page name indicating its current processing stage (e.g., "Articulation Kickouts").
4. **Drill Down for Details:** Clicking the page name opens a dedicated section within the Student Action Center, showcasing detailed batch information for that specific student.
5. **Take Action:** If needed, you can initiate actions directly from this section. This may include rerunning the transcript processing or marking it as processed manually.

The Student to Transcripts menu streamlines your workflow by:

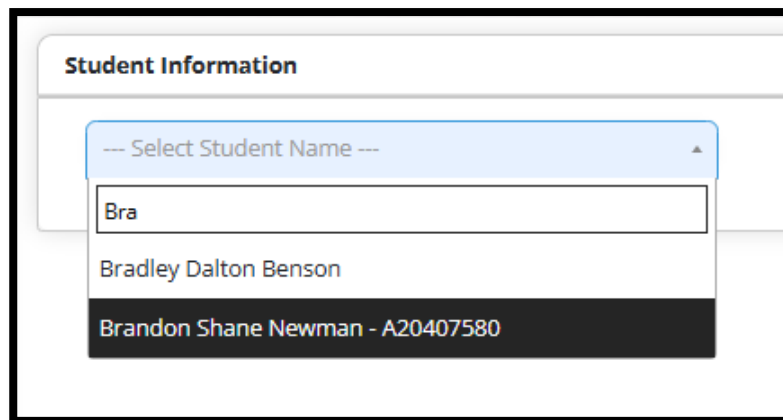

A screenshot of a web application's 'Student Information' dropdown menu. The dropdown is open, showing a list of students. The first student, 'Brandon Shane Newman - A20407580', is highlighted in a dark blue bar. The other students listed are Jade Taylor Chambless - A20525819, Jaylee M Winlock - A20467609, Jeremy D Ratliff - A20545799, Kyle Smith - A20355837, and Rachel Livingston - A20519010. The dropdown is titled 'Student Information' and has a search bar above it with the placeholder text '--- Select Student Name ---'.

A screenshot of the 'Student to Transcripts Action Center' interface. On the left is a dark sidebar with a menu containing 'Dashboard', 'Transcripts', 'Articulation', 'Student Action Center' (which is expanded to show 'Student to Transcripts'), 'Reports', 'College Uploads', and 'Setup'. The main content area is titled 'Student to Transcripts Action Center' and contains a 'Student Information' section with a dropdown menu. The dropdown is open, showing a list of students. The first student, 'Brandon Shane Newman - A20407580', is highlighted in a dark blue bar. The other students listed are Jade Taylor Chambless - A20525819, Jaylee M Winlock - A20467609, Jeremy D Ratliff - A20545799, Kyle Smith - A20355837, and Rachel Livingston - A20519010. The dropdown is titled 'Student Information' and has a search bar above it with the placeholder text '--- Select Student Name ---'.

- Centralizing Transcript Access: No more searching scattered systems for individual

A screenshot of a web application's 'Student Information' dropdown menu. The dropdown is open, showing a list of students. The first student, 'Brandon Shane Newman - A20407580', is highlighted in a dark blue bar. The other students listed are Bradley Dalton Benson and Jade Taylor Chambless - A20525819. The dropdown is titled 'Student Information' and has a search bar above it with the placeholder text '--- Select Student Name ---'.

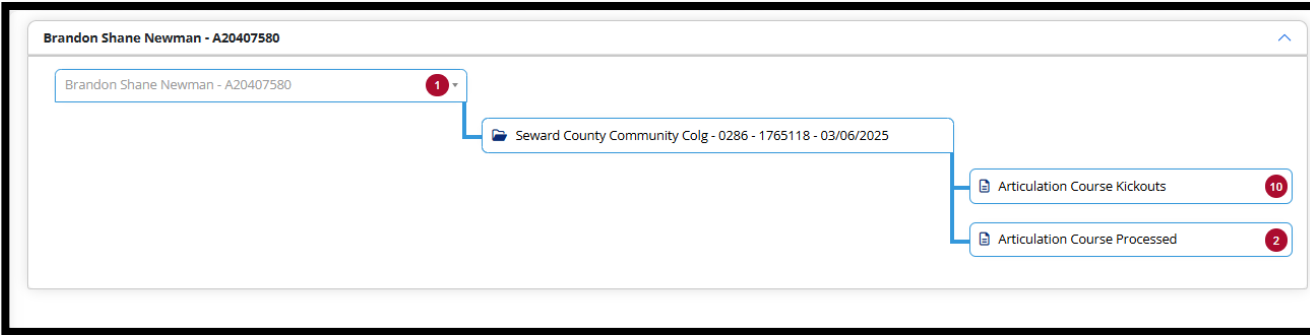

- student records.
- Clear Status Communication: Easily understand the processing stage of each transcript with descriptive page names.
- Actionable Insights: Gain the ability to take necessary steps directly from the detailed transcript view.

Screenshots below shows how the student details are displayed to select from, when the student's name or the student's Banner ID / OSUOKC ID is provided in the search box.

Select using the student's name -

Select using the student's Banner ID / OSUOKC ID -

Select the student's record – All the details of the transcripts received for the student will be listed. The details of the transcripts include the Institution name from where the transcript was received, the unique Batch ID associated with that transcript, the date when it was received and the page on the DigiScript portal where the batch can be seen based on the processing status.

2.6 Reports

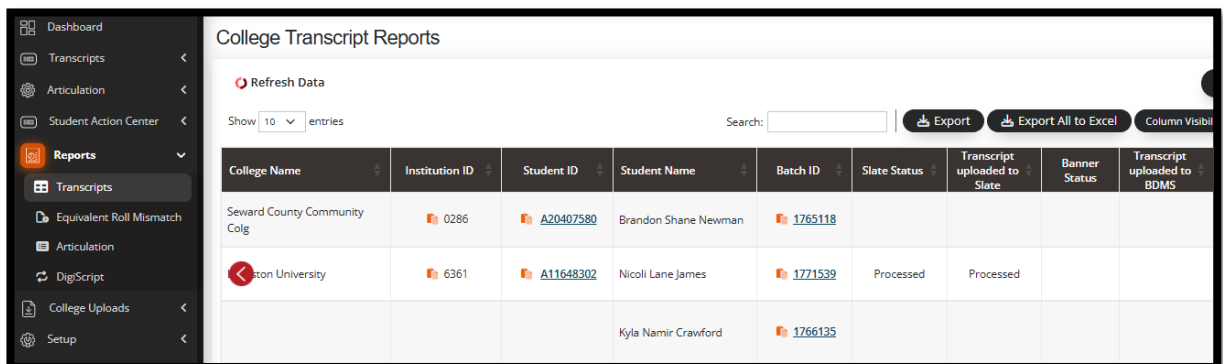

Reports show Transcript reports, Equivalent Roll Mismatch, Articulation reports, DigiScript reports. These reports can be filtered by clicking on the filter icon in the top right corner. It gives the option to filter using any field available. All these results can be exported to an Excel sheet using the export option.

2.6.1 Transcripts Report

This report provides a comprehensive overview of a student's transcript processing journey within the system. Transcript reports are the list of transcripts that have been processed, failed and rerun during processing at transcript level.

- i. Refresh Data: User can refresh the page using refresh data
- ii. Search: User can search using any field value
- iii. Filter: User can apply filter using any field by selecting the field from drop down

A screenshot of the 'College Transcript Reports' interface. On the left is a dark sidebar with navigation links: Dashboard, Transcripts, Articulation, Student Action Center, Reports (selected), Transcripts (sub-item), Equivalent Roll Mismatch, Articulation, DigiScript, College Uploads, and Setup. The main area has a title 'College Transcript Reports' and a 'Refresh Data' button. Below the title is a 'Show 10 entries' dropdown and a 'Search:' input field. To the right of the search field are buttons for 'Export', 'Export All to Excel', and 'Column Visibility'. The main content is a table with the following columns: College Name, Institution ID, Student ID, Student Name, Batch ID, Slate Status, Transcript uploaded to Slate, Banner Status, and Transcript uploaded to BDMS. The table contains three rows of data.

College Name	Institution ID	Student ID	Student Name	Batch ID	Slate Status	Transcript uploaded to Slate	Banner Status	Transcript uploaded to BDMS
Seward County Community Colg	0286	A20407580	Brandon Shane Newman	1765118				
Ston University	6361	A11648302	Nicoli Lane James	1771539	Processed	Processed		
			Kyla Namir Crawford	1766135				

The fields are described below:

Number	Field	Description
1.	College Name	College / University Name
2.	Institution ID	Institution ID from Banner
3.	OSUOKC ID	Student ID from Banner
4.	Student Name	Student Name as on the Transcript
5.	Batch ID	Unique ID to identify each Transcript
6.	Slate Status	➤ Processed – Student details are entered in Slate successfully ➤ Blank – Slate process is not done ➤ Failed – The BOT errored out while processing student details in Slate
7.	Transcript uploaded to Slate	➤ Processed – Student Transcript was uploaded to Slate successfully ➤ Blank – Slate upload process has not yet started ➤ Failed – The BOT errored out while uploading the transcript on Slate
8.	Banner Status	➤ Processed – Student details are entered in Banner successfully ➤ Blank – Banner process is not done ➤ Failed – The BOT errored out while processing student details in Banner
9.	Transcript uploaded to BDMS	➤ Processed – Student Transcript was uploaded to BDMS successfully ➤ Blank – BDMS upload process has not yet started ➤ Failed – The BOT errored out while uploading the transcript on BDMS
10.	Scenario	Student type: ➤ Applicant
11.	Error Reason/Action	Error reason which mentions why the process failed and the Action to be taken
12.	Error Screenshot	Screenshot taken when the BOT errored out

13.	Transcript	Link to view the Transcript
14.	Transcript Status	Overall Transcript Status: ➤ New – The Transcript is to be picked up by the BOT for processing ➤ Processed – Student details are entered in Slate, Banner and uploaded to BDMS successfully ➤ Rerun – The Batch ID or the transcript is set to be reprocessed and will be picked up by the BOT in the next run ➤ Failed – The BOT could not proceed with the processing of the student transcript ➤ Duplicate – The uploaded transcript is a copy of a transcript which is present in the DigiScript portal which was either downloaded by the BOT or uploaded through the portal earlier.
15.	Articulation Status	Overall Articulation Status: ➤ New – The Transcript is to be picked up by the BOT for evaluation. ➤ Processed – The evaluation is completed successfully but the Evaluation letter is not sent to the student ➤ Partially Processed – There are few course(s) which were not evaluated are to be reviewed by OSU-OKC team ➤ Rerun – The courses on the transcript which were in kickouts are set to reprocess and will be picked up by the BOT in the next run ➤ Failed – The BOT could not proceed with the evaluation of all the transcript courses, and these kicked out courses can be seen on the Articulation-> Articulation Kickouts page where they can be mapped using override edit. No Articulation needed – The courses on the transcript are not to be evaluated. ➤ Processed and Rolled – The Evaluation is completed; the evaluation letter is sent to the student and the process of rolling to history is also completed.
16.	User Comment	Details entered by the OSU-OKC team are viewed
17.	Updated On	Shows the date and time when the Batch ID was last processed either by the BOT/user
18.	Updated By	Shows the name of the BOT/User who last processed/updated the Batch ID

2.6.2 Equivalent Roll Mismatch

This page shows the records of for which equivalent roll hours do not match OSU-OKC team to review and process these records.

College Name	Institution ID	OSUIT ID	Student Name	Batch ID	Slate Status	Transcript uploaded to Slate	Banner Status	Transcript uploaded to BDMS	Scenario
Concordia University Texas	6127	A11801852	Leigh Westbrook	1687643	Processed	Processed	Processed	Processed	Appli

10.	Scenario	Student type: ➤ Applicant
11.	Transcript	Link to view the Transcript
12.	Transcript Status	➤ Processed – Student details are entered in Slate, Banner and uploaded to BDMS successfully
13.	Articulation Status	➤ Processed – The evaluation is completed successfully but the Evaluation letter is not sent to the student
14.	Letter Sent Date	➤ The date on which letter was sent
15.	Transfer Letter File Link	Link to view the Transcript
16.	User Comment	User Comments – Equivalent Roll hours do not match. Please review
17.	Updated On	Shows the date and time when the Batch ID was last processed either by the BOT/user
18.	Updated By	Shows the name of the BOT/User who last processed/updated the Batch ID

2.6.3 Articulation Report

This Articulation report simplifies managing the student's course transfers. See all the details you need, course by course:

- **Equivalency Status:** Quickly identify if a course has a direct equivalent at your institution (articulated) or needs further review due to missing equivalency.
- **Evaluation Details:** Understand why a course might not have been articulated (e.g., no equivalent found).
- **Override Edits (if applicable):** If manual intervention was required, the report displays the equivalent course details, including subject, course ID, credits, and grade.
- **Last Updated By and Time:** Stay informed about who last modified the course record and the timestamp.

This report allows you to efficiently monitor the progress of each individual course transfer, ensuring a smooth transition for your students.

Articulation reports are the list of articulation that has been processed/failed/rerun during processing.

- Refresh Data:** User can refresh the page using refresh data
- Search:** User can search using any field value
- Filter:** User can apply filter using any field by selecting the field from drop down

2.6.4 DigiScript Report

The DigiScript Report provides a detailed snapshot of a student's transcript processing journey. It offers critical information for managing and tracking transcript status throughout the admissions process.

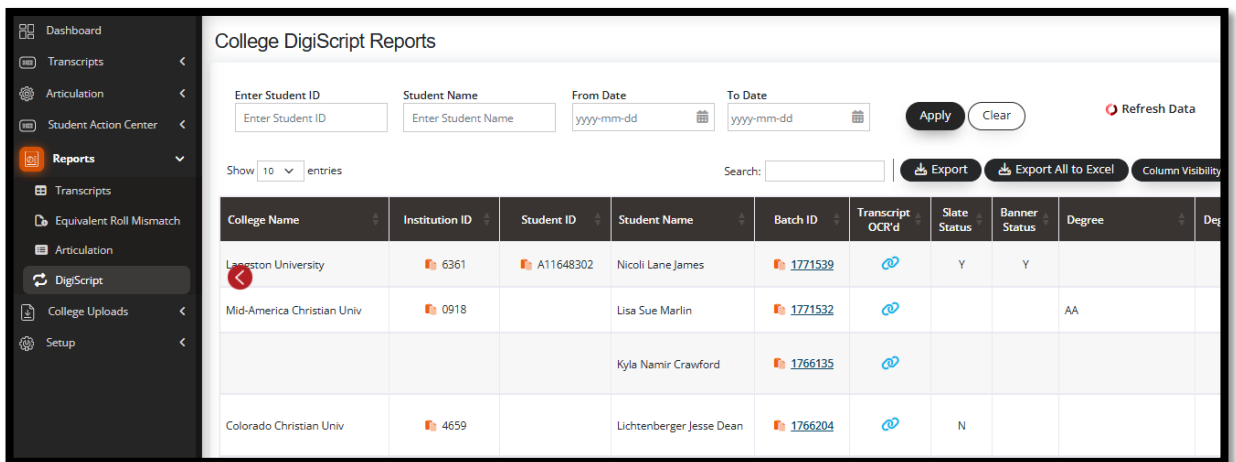

Key insights from this report include:

- **Student Identity:** Clear identification of the student with details like name, Banner ID (OSUOKC ID), and transcript link.
- **Academic Journey:** Information on the awarded degree, enrollment dates, and admission term.
- **System Processing:** Visibility into the transcript's progress within Slate and Banner systems, including OCR status and any processing errors.
- **Admissions Team Status:** Real-time update on the transcript's status for the admissions department.

Essentially, this report serves as a central hub for all essential transcript-related data, streamlining the admissions process and providing transparency into the transcript lifecycle.

The DigiScript Report offers valuable insights for various stakeholders involved in the admissions process:

- **Efficient Transcript Management:** Track the status of incoming transcripts, identify potential issues, and prioritize review.
- **Improved Data Accuracy:** Verify student information, degree details, and enrollment history for accurate record-keeping.
- **Faster Processing:** Streamline the transcript evaluation process by quickly identifying complete and processed transcripts.
- **Enhanced Decision Making:** Utilize transcript data to make informed decisions about student admissions and eligibility.

College Name	Institution ID	Student ID	Student Name	Batch ID	Transcript OCR'd	Slate Status	Banner Status	Degree	Degree Term
Longson University	6361	A11648302	Nicoli Lane James	1771539	Link	Y	Y		
Mid-America Christian Univ	0918		Lisa Sue Marlin	1771532	Link			AA	
			Kyla Namir Crawford	1766135	Link				
Colorado Christian Univ	4659		Lichtenberger Jesse Dean	1766204	Link	N			

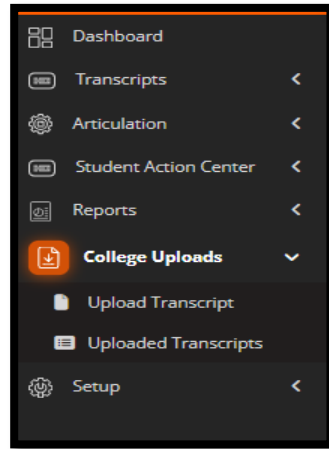

The fields are described below:

Number	Field	Description
1	College Name	College / University Name
2	Institution ID	Institution ID from Banner
3	OSUOKC ID	Student ID from Banner
4	Student Name	Student Name as on the Transcript
5	Batch ID	Unique ID for every Transcript
6	Transcript OCR'd	Link to view the Transcript
7	Slate Status	➤ Processed – Student details are entered in Slate successfully ➤ Blank – Slate process is not done ➤ Failed – The BOT errored out while processing student details in Slate
8	Banner Status	➤ Processed – Student details are entered in Banner successfully ➤ Blank – Banner process is not done ➤ Failed – The BOT errored out while processing student details in Banner

19	Status	➤ Processed/ Error

2.7 College Uploads

Uploads are for OSU-OKC to process the paper copy transcripts. It consists of two sections:

- Upload Transcript
- Uploaded Transcripts

2.7.1 Upload Transcript

Transcripts upload is where OSU-OKC can manually upload the paper copy transcripts. Select the source as “Scanned” and upload the transcript(s).

A screenshot of the 'College Transcripts Upload' form. It features a 'Select Source' dropdown menu with options: Scanned, NSC, Parchment, Scanned (highlighted in blue), and ScannedUnofficial. To the right of the dropdown is a 'Pdf File' section with a 'Choose Files' button and the text 'No file chosen'.

- One can upload up to 10 transcripts at a time
- Wait until the popup appears that the transcript was successfully uploaded

2.7.2 Uploaded Transcript

All the transcripts that are downloaded from different sources, and any transcripts are manually uploaded by OSU-OKC on upload transcript using DigiScript UI portal will be

uploaded to the view uploaded transcripts using file name and uploaded date and time along with the transcript status and articulation status.

College - Uploaded Transcripts						
Refresh Data Show 10 entries Search: Export Export All to Excel						
Source Type	File Name	Formatted Filename	Transcript Status	Articulation Status	Uploaded Date	Uploaded By
Scanned	10198349.pdf	10198349_Scanned_2025-03-08_99334.pdf	New	New	2025-03-08 08:24:35.000	Rakshya Basnet

Scanned	20317964.pdf	20317964_Scanned_2025-03-08_23909.pdf	New	New	2025-03-08 08:24:35.000	Rakshya Basnet

The fields are described below:

Sl. No	Field	Description
1	Source Type	A source that transcript has been uploaded from: 1. National Clearing house (NSC) 2. Scanned 3. ScannedUnofficial 4. Parchment
2	File Name	Name of the file uploaded
3	Formatted Filename	File name formatted as (FileName_Source uploaded and uploaded date and random incremented number) to store on KTech Cloud
4	Student Name	Student Name as on the Transcript
5	OSUOKC ID	Student ID from Banner
6	College Name	Name of the Institute as on the Transcript
7	Transcript Status	Overall Transcript Status: ➤ New – The Transcript is to be picked up by the BOT for processing ➤ Processed – Student details are entered in Slate, Banner and uploaded to BDMS successfully ➤ Rerun – The Batch ID or the transcript is set to be reprocessed and will be picked up by the BOT in the next run ➤ Failed – The BOT could not proceed with the processing of the student transcript ➤ Duplicate – The uploaded transcript is a copy of a transcript which is present in the DigiScript portal which was either downloaded by the BOT or uploaded through the portal earlier.

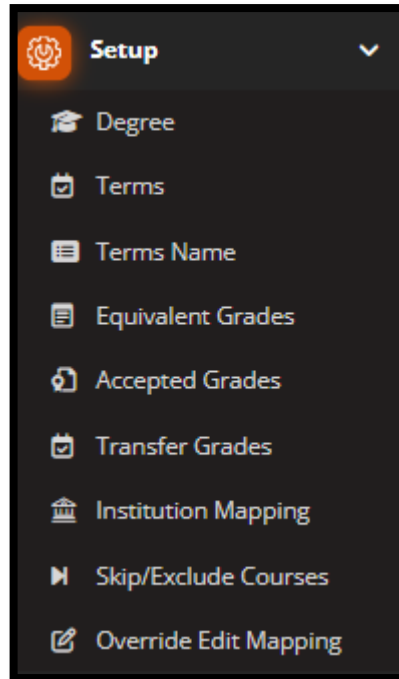

8	Articulation Status	Overall Articulation Status: ➤ New – The Transcript is to be picked up by the BOT for evaluation. ➤ Processed – The evaluation is completed successfully but the Evaluation letter is not sent to the student ➤ Partially Processed – There are few course(s) which were not evaluated are to be reviewed by OSU-OKC team ➤ Rerun – The courses on the transcript which were in kickouts are set to reprocess and will be picked up by the BOT in the next run ➤ Failed – The BOT could not proceed with the evaluation of all the transcript courses, and these kicked out courses can be seen on the Articulation- > Articulation Kickouts page where they can be mapped using override edit. ➤ No Articulation needed – The courses on the transcript are not to be evaluated. ➤ Processed and Rolled – The Evaluation is completed; the evaluation letter is sent to the student and the process of rolling to history is also completed.
9	Uploaded date	Date and time stamp when the Transcript was uploaded
9	Uploaded By	Downloaded BOT / Name of the user – who uploaded the transcript
10	Batch ID	Unique ID to identify each Transcript

The following are the various Scenarios for Transcript and Articulation status:

- **Scenario-1:** When the Transcript and Articulation status are “New” – yet to be processed by BOT.
- **Scenario-2:** when the Transcript status is ‘Processed’ and Articulation status is ‘Failed’ – transcript was successfully processed but failed during the process of articulation of courses.
- **Scenario-3:** when the Transcript status is ‘Processed’, and Articulation status is blank – transcript was successfully processed in Slate but is awaiting admission decision to continue with evaluation.

2.8 Setup

The setup page provides a comprehensive list of various mapping types on their respective pages. OSU-OKC can maintain the application by adding or modifying Degree, Terms, institute mapping, Terms name, Accepted grades, equivalent Grades, Transfer grades mapping, Skip keywords and Override edit mapping.

2.8.1 Degree

This page outlines degree mapping. Degree shows the OSU-OKC degree code and degree name with capabilities of adding and modifying degrees

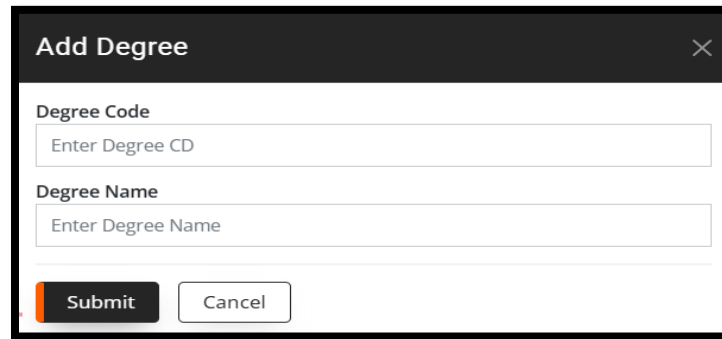

- **Add Degree:**
Click on **Add degree**

A screenshot of the "View Degrees" page. On the left is a sidebar with navigation links: Dashboard, Transcripts, Articulation, Student Action Center, Reports, College Uploads, and Setup. The Setup menu is expanded, showing options like Degree, Terms, Terms Name, Equivalent Grades, Accepted Grades, Transfer Grades, Institution Mapping, Skip/Exclude Courses, and Override Edit Mapping. The main content area is titled "View Degrees" and includes an "Add Degree" button, a "Show 10 entries" dropdown, a search bar, and buttons for "Export", "Export All to Excel", and "Column Visibility". Below this is a table with columns: Degree Code, Degree Name, Updated By, Updated On, and Action. The table contains 10 rows of degree data.

Degree Code	Degree Name	Updated By	Updated On	Action
AS	Associate In Science	Laxman Dasari	03/06/2025 12:22:53pm	
BS	Bach of Science	Laxman Dasari	03/02/2025 10:28:53am	
AA	Associate of Arts in Church Ministries	Kyle Gregorio	12/16/2024 08:18:33am	
BS	Bachelor of Science in Computer Science	Tejaswini Siddireddy	12/05/2024 07:48:04am	
BS	BS in Computer Info Systems	Tejaswini Siddireddy	12/03/2024 05:26:43am	
CERT	Practical Nursing	Tejaswini Siddireddy	12/03/2024 05:26:27am	
AA	Assoc-General Studies	Tejaswini Siddireddy	12/03/2024 05:26:03am	
AD	Associate in Applied Technolog	Tejaswini Siddireddy	12/03/2024 05:25:42am	
BBA	Information and Operations Mgt	Tejaswini Siddireddy	12/03/2024 05:24:25am	
AD	Associates	Kyle Gregorio	11/26/2024 02:03:15pm	

Provide the degree code and the degree.

For example: Degree code: AA and Degree Name: Assoc in Arts

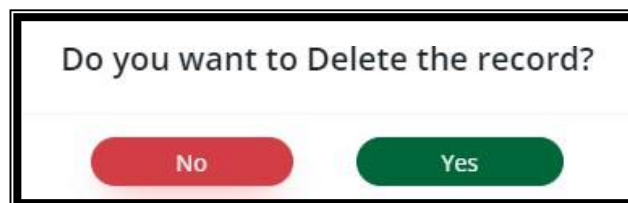

A modal form titled "Add Degree" with a close button (X) in the top right corner. It contains two input fields: "Degree Code" with the placeholder text "Enter Degree CD" and "Degree Name" with the placeholder text "Enter Degree Name". At the bottom, there are two buttons: "Submit" (orange) and "Cancel" (white with black border).

➤ **Delete Degree:**

- i. Select the degree and click on delete icon in the action column.

Degree Code	Degree Name	Updated By	Updated On	Action
PHD	Doctor of Philosophy			 
MA	Master of Arts			 
BA	Bachelor of Arts			 
BS	Bachelor of Science			 

- ii. Click on 'Yes' on the "Do you want to delete the record" Pop-up.

A modal dialog box with the title "Do you want to Delete the record?". It contains two buttons: "No" (red) and "Yes" (green).

- iii. "Record deleted successfully" will be displayed, and the degree row is successfully deleted.

2.8.2 Terms

Here, the mapping for terms is presented. Any modifications or addition related to term mapping can be made on this page.

➤ **Add Terms:** To add terms on the term mapping page

- i. Click on **Add** term

2.8.9 Override Edit Mapping

All the courses which were in Articulation kickouts and were processed using Overrides are added to this mapping table. This will help the BOT identify the override course to be considered when it does not find any equivalency mapping in SHATATR.

**** Need to add a Screenshot once after portal changes are done ****

➤ **To Add Course in Override Edit Mapping:**

1. Click on **Add Override Edit Mapping**
2. Add all the details and click on submit

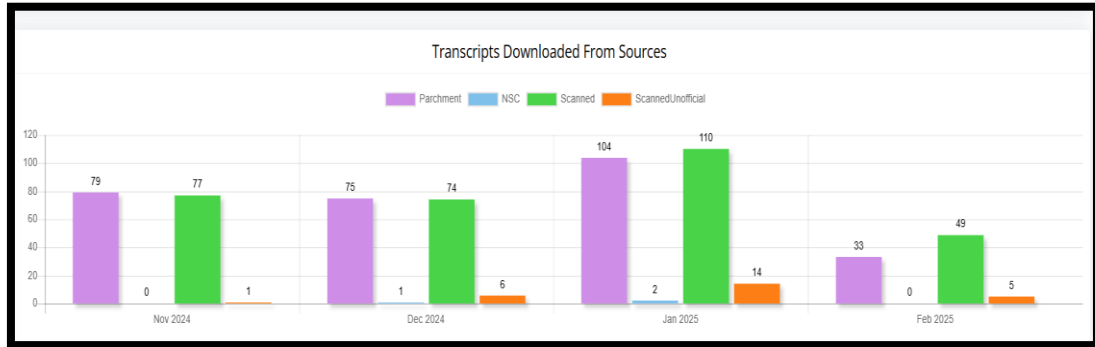

The screenshot shows a web form titled "Add Override Edit Mapping" with a close button (X) in the top right corner. The form is divided into two columns of input fields. The left column contains: "Institution ID" (a dropdown menu with "-- Select Institution --"), "Subject" (text input "Enter Subject"), "Eqv Subject" (text input "Enter Eqv Subject"), and "Course Attribute" (text input "Enter Course Attribute"). The right column contains: "Terms" (text input "Enter Term"), "Course" (text input "Enter Course"), and "Eqv Course" (text input "Enter Eqv Course"). At the bottom left of the form are two buttons: "Submit" (highlighted with an orange bar) and "Cancel".

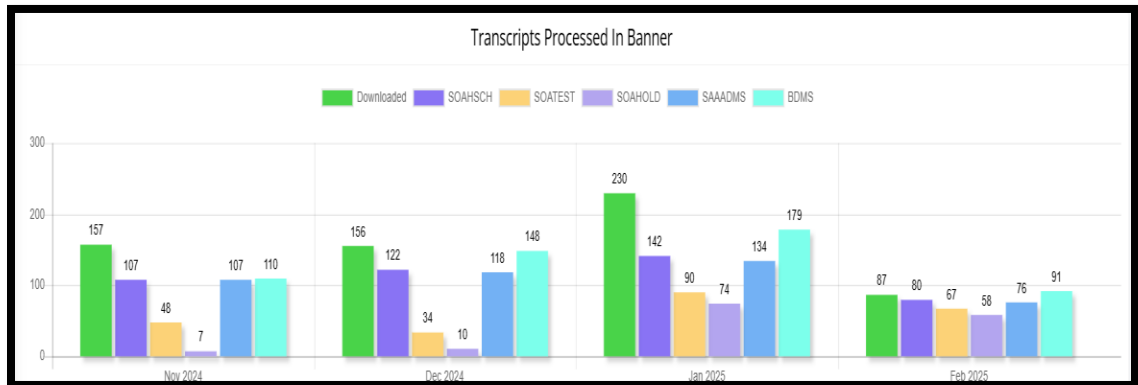

*****HIGH SCHOOL PORTAL*****

This page displays the status of following in graph format with the access to filter by school, from date and to date.

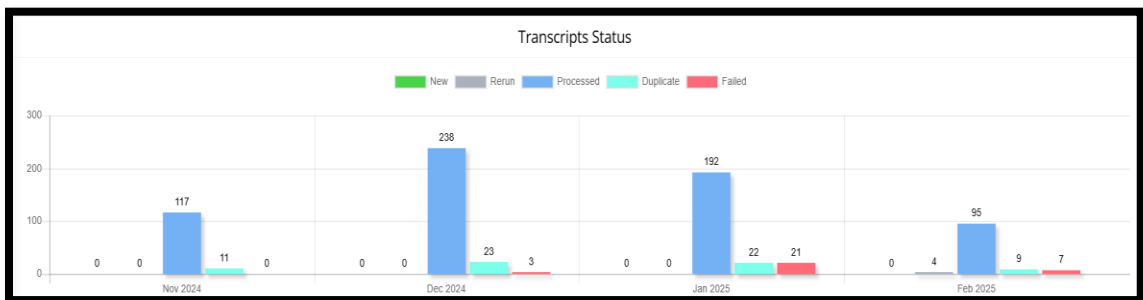

1) Transcript Sources

2) Transcripts Processed In Banner

3) Transcripts Status

2.10 Transcript Page

On the Transcript page, the user will find following sections:

- 1) Transcript Kickouts
- 2) Transcript Processed
- 3) Rerun

2.10.1 Transcript Kickouts

Kickouts is the list of school transcripts that have been failed/kicked out during transcript processing. Fields like error reason and error screenshot explain why the transcript is kickoff.

High School Name	School ID	Student ID	Slate ID	Student Name	Date of Birth	Batch ID	Slate Status	Transcript uploaded Slate
Kingfisher High School	371995	A20368709		Allyson Jean Scammahorn	09/14/2003	1771541		
City Senior High School	372895	A20377371		Pressnall, Brantley Paul	01/30/2004	1771544		
				Martin, Courtney Nicole	04/29/1999	1771534		
Oklahoma Christian School	371187	A20154442		Kittle, Alison Ann	08/09/1999	1766228		

- For transcript kickouts, we can reprocess transcript using options "Reprocess the Transcript,"
- Use refresh data to refresh the page and can search using any field or field values on the search
- Also, can export the results to excel using export option
 - This export will only export the entries loaded on the page. For example: if the page is showing 10 entries, the export will only export 10 entries, and if the page shows 50 entries – can download 50 entries.

The fields are described below:

Number	Field	Description
1	High School Name	High School Name
2	School ID	Institution ID / CEEB code from Banner
3	OSUOKC ID	Student ID from Banner
4	Slate ID	Unique Applicant ID from Slate
5	Student Name	Student Name as on the Transcript
6	Date of Birth	Applicant's Date of Birth
7	Batch ID	Unique ID for every Transcript
8	Slate Status	➤ Processed – Student details are entered in Slate successfully ➤ Blank – Slate process is not done. ➤ Failed – The BOT errored out while processing student details in Slate
9	Transcript uploaded to Slate	➤ Processed – Student Transcript was uploaded to Slate successfully ➤ Blank – Slate upload process has not yet started ➤ Failed – The BOT errored out while uploading the transcript on Slate

30	Action	Action Needed: ➤ Reprocess this transcript – Based on the error reason on the kickouts page, the OSU-OKC team needs to take action and mark the Batch ID for reprocessing. ➤ Processed manually by OSUOKC – If the OSU-OKC team evaluates and processes the student transcript manually then this option has to be selected
31	User Comment	User Comments – Editable Field
32	Degree Received Date	Shows the Degree Received Date
33	Updated on	Shows the date and time when the Batch ID was last processed either by the BOT/user
34	Updated By	Shows the name of the BOT/User who last processed/updated the Batch ID

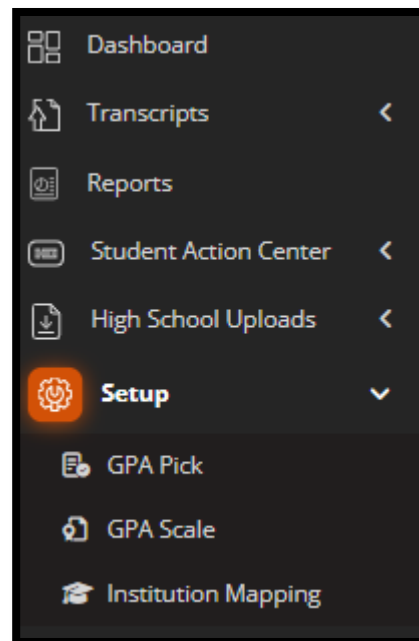

The following are some of the error reasons for the Transcripts Kickout:

- **Institution code or name not found:** This error arises when the system cannot identify or recognize the institution from which the transcript originates. The institution's code or name provided in the transcript does not match any entries in the portal.

- *Action*

To resolve this error:

1. Go to setup menu and choose 'Institution Mapping'.

Edit or **Add** the institution mapping by updating the transcript institution name with the institution name mentioned in the error reason.

A screenshot of a form titled 'Edit Institution Mapping' with a close button (X) in the top right corner. The form contains several input fields arranged in two columns. The left column includes fields for 'Banner Institution ID' (371095), 'Banner Institution Zipcode' (74030), 'Transcript Institution Zipcode' (74030), and 'Slate Institution Name' (Drumright High School). The right column includes fields for 'Banner Institution Name' (Drumright High School), 'Transcript Institution Name' (Drumright), and 'Slate Institution ID' (371095). At the bottom left, there are two buttons: 'Update' (highlighted with an orange bar) and 'Cancel'.

Add Institution Mapping

Banner Institution ID

Banner Institution Name

Banner Institution Zipcode

Transcript Institution Name

Transcript Institution Zipcode

Slate Institution ID

Slate Institution Name

Submit

Cancel

- Now on the transcript kickouts page choose option “Reprocess this Transcript” under the action needed dropdown button of the same transcript and click on the “Update” button.

- Use refresh data to refresh the page and can search using any Field or field values on the search .
- Also, user can export the results to excel using export option.
 - This export will only export the entries loaded on the page. For example: if the page is showing 10 entries, the export will only export 10 entries, and if the page shows

- 50 entries – can download 50 entries.
- And if filtered by any value, it will only download the filtered values according to entries on the page.

The fields are described below:

Number	Field	Description
1	High School Name	High School Name
2	School ID	High School ID on the Transcript
3	OSUOKC ID	Student ID from Banner

2.12 Uploads

Uploads are for OSU-OKC to Process the paper copy Transcripts.

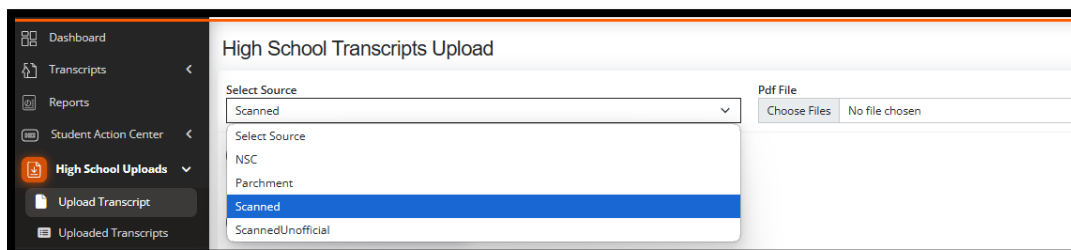

It consists of two sections:

- Upload Transcript
- Uploaded Transcripts

2.12.1 Upload Transcript

Transcripts Upload is where OSU-OKC can manually upload the paper copy transcripts. Select the source as SCANNED and upload a transcript.

- One can upload up to 10 transcripts at a time.
- Wait until the popup appears that the transcript was successfully uploaded.

2.12.2 Uploaded Transcript

All the transcripts that are downloaded from different sources, and any transcripts are manually uploaded by OSU-OKC on upload transcript using DigiScript UI portal will be uploaded to the view 'Uploaded Transcripts' using file name and uploaded date and time along with the transcript status.

Source Type	File Name	Formatted Filename	Transcript Status	Uploaded Date	Uploaded By	Batch ID
Scanned	11787414.pdf	11787414_Scanned_2025-03-08_30521.pdf	Failed	2025-03-08 08:27:57.000	Rakshya Basnet	1771534
Scanned	20102768.pdf	20102768_Scanned_2025-03-08_02340.pdf	Rerun	2025-03-08 08:27:57.000	Rakshya Basnet	1771538

The fields are described below:

Sl. No	Field	Description
1	Source Type	A source that transcript has been uploaded from: 1. National Clearing house (NSC) 2. Parchment 3. Scanned 4. ScannedUnofficial
2	File Name	Name of the file uploaded
3	Formatted Filename	File name formatted as (FileName_Source uploaded and uploaded date and random incremented number) to store on KTech Cloud
4	Student Name	Student Name as on the Transcript
5	OSUOKC ID	Student ID from Banner
6	Transcript Status	Overall Transcript Status: ➤ New – The Transcript is to be picked up by the BOT for processing. ➤ Processed – Student details are entered in Slate, Banner and uploaded to BDMS successfully ➤ Rerun – The Batch ID or the transcript is set to be reprocessed and will be picked up by the BOT in the next run ➤ Failed – The BOT could not proceed with the processing of the student transcript . ➤ Duplicate – The uploaded transcript is a copy of a transcript which is present in the DigiScript portal which was either

		downloaded by the BOT or uploaded through the portal earlier
7	Uploaded date	Date and time stamp when the Transcript was uploaded
8	Updated By	Downloaded BOT / Name of the user - who uploaded the transcript
9	Batch ID	Unique ID for every Transcript

2.13 Setup

The setup page provides a page where OSU-OKC can maintain the application by adding or modifying institute mapping and GPA pick mapping

2.13.1 GPA Pick

This Page shows the GPA pick based on the information available on the transcripts. Users are able to add, edit, or delete the information based on the requirement.

View GPA Pick Mapping

Add GPA Pick Mapping
